5201 Ruffin Road, Suite B
San Diego, CA 92123

Dear County of San Diego Planning Commissioners,

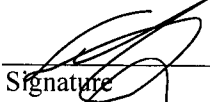

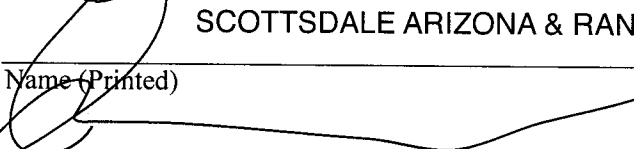

**I SUPPORT THE PROPOSAL TO EXPAND THE DRIVING RANGE AND
CONSTRUCT FIVE NEW HOMESITES AT
THE BRIDGES @ RANCHO SANTA FE**

As a resident and/or member of The Bridges at Rancho Santa Fe, I enthusiastically support the proposal to expand the Driving Range and construct five new homesites at The Bridges otherwise known as Alternative C of the Environmental Impact Report (applications: TM5270, MUP 85-084W-5, MUP 064-W4, SPA 01-004, SPA 03-006, VAC 03-018, B/C 03-0250, and B/C 03-0221).

The Bridges at Rancho Santa Fe has, from the outset, had a land plan and architecture throughout the community which reflects the highest quality and compatibility with its surroundings. Conversion of one parcel in Unit 6 into five new homesites are a modest change, entirely located within the confines of The Bridges Specific Plan, and is being done with mitigation for all impacts and with the highest possible sensitivity to neighboring properties.

The expansion of the driving range will fulfill a missing component of the golf course, and enable the Bridges to reach its full potential as a complete world-class golf facility. In addition, the golf members really need this improvement.

I encourage you to vote YES on this proposal!

CONSTRUCT FIVE NEW HOMESITES AT
THE BRIDGES @ RANCHO SANTA FE**

As a resident and/or member of The Bridges at Rancho Santa Fe, I enthusiastically support the proposal to expand the Driving Range and construct five new homesites at The Bridges otherwise known as Alternative C of the Environmental Impact Report (applications: TM5270, MUP 85-084W-5, MUP 064-W4, SPA 01-004, SPA 03-006, VAC 03-018, B/C 03-0250, and B/C 03-0221).

The Bridges at Rancho Santa Fe has, from the outset, had a land plan and architecture throughout the community which reflects the highest quality and compatibility with its surroundings. Conversion of one parcel in Unit 6 into five new homesites are a modest change, entirely located within the confines of The Bridges Specific Plan, and is being done with mitigation for all impacts and with the highest possible sensitivity to neighboring properties.

The expansion of the driving range will fulfill a missing component of the golf course, and enable the Bridges to reach its full potential as a complete world-class golf facility. In addition, the golf members really need this improvement.

I encourage you to vote YES on this proposal!

CONSTRUCT FIVE NEW HOMESITES AT
THE BRIDGES @ RANCHO SANTA FE**

As a resident and/or member of The Bridges at Rancho Santa Fe, I enthusiastically support the proposal to expand the Driving Range and construct five new homesites at The Bridges otherwise known as Alternative C of the Environmental Impact Report (applications: TM5270, MUP 85-084W-5, MUP 064-W4, SPA 01-004, SPA 03-006, VAC 03-018, B/C 03-0250, and B/C 03-0221).

The Bridges at Rancho Santa Fe has, from the outset, had a land plan and architecture throughout the community which reflects the highest quality and compatibility with its surroundings. Conversion of one parcel in Unit 6 into five new homesites are a modest change, entirely located within the confines of The Bridges Specific Plan, and is being done with mitigation for all impacts and with the highest possible sensitivity to neighboring properties.

The expansion of the driving range will fulfill a missing component of the golf course, and enable the Bridges to reach its full potential as a complete world-class golf facility. In addition, the golf members really need this improvement.

I encourage you to vote YES on this proposal!

San Diego, CA 92123

Dear County of San Diego Planning Commissioners,

**I SUPPORT THE PROPOSAL TO EXPAND THE DRIVING RANGE AND
CONSTRUCT FIVE NEW HOMESITES AT
THE BRIDGES @ RANCHO SANTA FE**

As a resident and/or member of The Bridges at Rancho Santa Fe, I enthusiastically support the proposal to expand the Driving Range and construct five new homesites at The Bridges otherwise known as Alternative C of the Environmental Impact Report (applications: TM5270, MUP 85-084W-5, MUP 064-W4, SPA 01-004, SPA 03-006, VAC 03-018, B/C 03-0250, and B/C 03-0221).

The Bridges at Rancho Santa Fe has, from the outset, had a land plan and architecture throughout the community which reflects the highest quality and compatibility with its surroundings. Conversion of one parcel in Unit 6 into five new homesites are a modest change, entirely located within the confines of The Bridges Specific Plan, and is being done with mitigation for all impacts and with the highest possible sensitivity to neighboring properties.

The expansion of the driving range will fulfill a missing component of the golf course, and enable the Bridges to reach its full potential as a complete world-class golf facility. In addition, the golf members really need this improvement.

I encourage you to vote YES on this proposal!
